Amanda is calling Weston and telling them to make the change today. Bret - I hope you can support this.

I leave this to R9 office folks. There is a slight typo (misspelling) that our contractors say they can't fix right away because the person with the software is out.

Enrique and I spoke and it is ok to hand it out today at the public meeting. I think the statement is ok as a general matter, not specific to region 9, especially since the next statement says that Navajo data is still under review.

Let us know. Also, we don't translate into Navajo (written) we only interpret into Navajo (spoken).

Some copies of this factsheet went out to community members but haven't been posted online.

Brent:

Do not release yet.

Clancy

Check statement in fact sheet under "what's happening now"

"Preliminary data shows water pollutants are decreasing...."

May need some refinement... geographic detail. Perhaps describe what agencies are doing upstream. Please check

Navajo translation of fact sheet status?

Should this be shared with Congressional offices at this point. Will it be posted to the Gold King website? Please let me know. Thanks.

Subject: Region 9 Gold King Mine factsheet

Hi all,

Attached is the final factsheet that Region 9 is using for our outreach on Navajo Nation. Please pass this along to people I might have forgotten (trying to keep track of a million things, as you might imagine).

Laura, can you pass this along to folks at NN EOC? Yolanda, can you pass this on to Chris from Region 8?

Thanks all, especially for your assistance in passing along.

Best,  
Amanda
